Hydro-Park

1127/1123

ADVANCED DESIGNS

**MUTRADE**

QINGDAO MUTRADE CO., LTD.

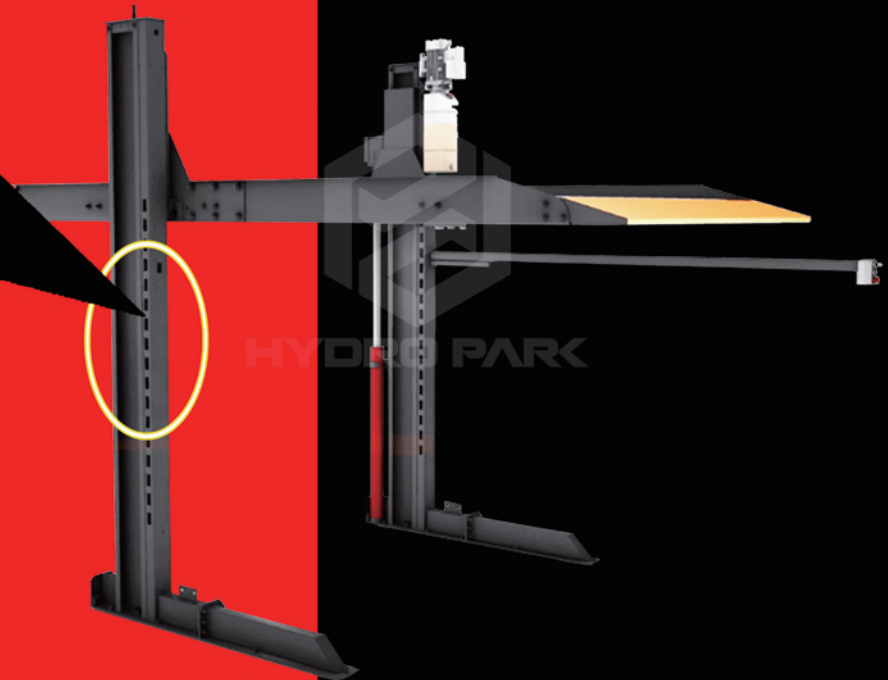

When several units of Hydro-Park 1127/1123 are installed in a line, one post of the first unit can be shared with the next unit. This can save some machine post and land space, as well as make the structural intensity of all units higher.

**MUTRADE**

QINGDAO MUTRADE CO., LTD.

There are 17 lock holes on each post, which will hold the anti-falling locks on platform to prevent the platform from falling if any accident happens at any time.

---

Top cover plate on each post makes the machine structure stronger, and prevents the carriage from over stroke if any mis-operation.
